10TH WORLD WATER FORUM INTERNATIONAL PHOTO COMPETITION AND EXHIBITION

Opening Remarks Minister of Public Works and Housing

Basuki Hadimuljono

Minister of Public Works and Housing
Republic of Indonesia as the Vice Chairman
of National Organizing Committee of
the 10th World Water Forum

Water is an inseparable part of everyday life. From waking up, daily activities, sanitary needs to resting at night - everyone needs water. However, the world is currently facing water problems such as floods, droughts, lack of water supply and inadequate sanitation. Water problems are also closely linked to climate change. A cross-sectoral approach is therefore required to find holistic solutions to these water problems.

As a wise man said: "All roads lead to Rome". So, in the context of tackling water problems, there are different paths that can be taken, one of which is collaboration. There are three things to consider when working together to tackle water problems, namely avoiding competition, prioritizing quality and inclusive cooperation, and providing support for mutual benefit.

In addition to collaboration, efforts are also needed to raise public understanding and awareness of water issues, including through photography. As someone who has made photography his hobby, I take pictures not only to capture moments, but also to explore inspiration and values that I can learn from for the future.

I am sure that the event "The 10th World Water Forum International Photo Competition 2024" can be a medium to raise public awareness and invite the public to actively participate in overcoming water problems. I hope that the photographs exhibited through this catalog can be an inspiration and motivation for photographers around the world who really want to make a difference in overcoming water problems.

Opening Remarks FIAP

Harjanto Sumawan

Chairman of the 10th World Water Forum
Photo Competition.

Greetings to all esteemed participants, supporters, sponsors, and Judges of the 10th Water World Forum Photo Competition. It is with great pleasure and enthusiasm that I extend a heartfelt welcome to this remarkable event, where the art of photography converges with the beauty and significance of water.

With an incredible participation of 902 talented individuals submitting a total of 4,416 remarkable photos from 53 diverse countries, this event has truly blossomed into a global showcase of creativity and awareness. Each image tells a unique story, capturing the essence of water in its many forms and contexts around the world and offer us a glimpse into the diverse ways in which water shapes our world – from its tranquil reflections to its powerful movements, from its life-sustaining qualities to the challenges it presents.

I would like to express my deepest gratitude to the Ministry of Public Works and Housing, Republic of Indonesia, for their invaluable support and commitment to the success of this competition. Their dedication to promoting water stewardship and sustainable practices is instrumental in advancing our collective efforts towards a more water-secure future. With the 70 winners images in the exhibition, we have the privilege of witnessing the challenges and importance of water in our lives and ecosystems. These images serve as powerful reminders of the critical role that water plays in shaping our world and essential to all life on Earth. Hopefully, we gain a deeper appreciation of the profound impact water has on our lives and planet as a whole.

10TH WORLD WATER FORUM INTERNATIONAL PHOTO COMPETITION AND EXHIBITION

Opening Remarks GPA

Martha Suherman

Chairman of GPA

Prosperous Greetings to all,

Praise and gratitude to God Almighty that celebration of the 10th World Water Forum in 2024 can run smoothly. The objective of 10th World Water Forum are to increase awareness of clean water in international level and it is joint responsibility for everyone, to maintain, build awareness, and innovate for the sustainability of clean water throughout the world.

One of many way to build awareness is to provide a real picture to the public of what has been created, done and attempted to maintain clean water. That is why 10th World Water Forum photography competition is held, so that we can see the actions of every individual in the world. It's not just a matter of the best photo or the best angle, but the message we can convey at that moment is the most important, once again this is all for the sake of mutual awareness for all of us.

Hopefully that in the future, this World Water Forum activity can become a reminder for all of us to continue to act in the sustainability of clean water in the world, to continue to speak out, to move, to express how important clean water is for humanity. Especially for photographers wherever you are, let's continue to capture moments to present to the world, so the awareness continues to be remembered and becomes a driving force in innovation.

It started with the meeting of Prem Promono Handoko, Lina Gunawan and Michael Lim in 2008. Not long afterward, on October 24 2018, a Mailing List was created with the name Dari Kita Untuk Kita or better known by the abbreviation DKUK.

This mailing list forum is growing with more and more members, currently recording more than 300 active DKUK members. With this very rapid development, at the suggestion of the late. Mr. Setyadi Joedaatmadja and also supported by Mr. Toky Yohari, Mr. Junedi Purnama, Mr. Wirianto Birin and Mr. Andreas Budiwidjaja Karim, a Photo Club was officially formed with the name Group of Photographic Artists.

Even though it is only 1 year old, with a high spirit of mutual cooperation on its first anniversary, GPA held its first exhibition at the Ramayana resort & spa, Bali, which took place from 24 October 2009 to 1 November 2009. All the photos on display were also made into a 76-page catalogue.

In 2010 the GPA registered the club as an official legal entity and had a NPWP, making it easier to receive financial support from sponsor companies. Three years after its first exhibition and with growing self-confidence, in 2012 GPA ventured to become the organizer of the XXXIII Indonesian Photo Salon. Apart from that, GPA also regularly publishes a quarterly bulletin led by Glen Lautan and Indaningsih Juanda. The bulletin was published from 2009 until the XVth edition in 2013.

On January 23 2020, GPA held a change of management, it was agreed by acclamation to appoint Martha Suherman as club chairman. However, when applying for a change of management in the Law and Human Rights department, the name Group of Photographic Artists was rejected because the words group and association were the same. Therefore, the Chair of GPA, Martha Suherman, with the approval of all members, proposed changing the club name to Global Photographic Artists.

History of GPA

In Collaboration With

10TH WORLD WATER FORUM INTERNATIONAL PHOTO COMPETITION AND EXHIBITION

Opening Remarks FPSI

Johnny Hendarta

President of FPSI

I would like to express my gratitude to God for His grace and blessings for the achievement of the 10th World Water Forum International Photo Competition 2024.

This competition is the first photo competition organized by Global Photographic Artist (GPA), supported by the Federation of Photographic Society of Indonesia (FPSI), Fédération Internationale de L'Art Photographique (FIAP) and Photographic Society of America (PSA) in collaboration with the Indonesian Ministry of Public Works and Housing.

The competition was organized under the three themes of "Water Security and Prosperity", "Water for Human and Nature" and "Disaster Risk Management and Innovation." The winner received a prize of US\$ 20,000 from the committee.

A total of 902 participants from 53 different countries and 4,416 photos collected show that people's enthusiasm for a photo competition is high. I hope that this competition will enhance our reputation in photography.

Let us work hand in hand to promote and develop our skills in the world of photography at both national and international levels.

10TH WORLD WATER FORUM INTERNATIONAL PHOTO COMPETITION AND EXHIBITION

The 10th World Water Forum International Photo Competition 2024 is an international photo competition organized by the Secretariat of the 10th World Water Forum together with the International Federation of Photographic of Art (FIAP), the Photographic Society of America (PSA) and Federation of Photographic Society of Indonesia (FPSI).

The competition was organized under the three Sections of “Water Security and Prosperity”, “Water for Human and Nature”, and “Disaster Risk Management and Innovation” to raise awareness of the 10th World Water Forum and the current state of water issues around the world.

The Section “Water Security and Prosperity” includes the development of water resources infrastructure to support food and energy security (such as dams/reservoirs, agricultural irrigation, hydropower, etc.) water use for agriculture, energy supply, tourism and various other sectors that serve the common good.

The Section “Water for Human and Nature” covers the use and management of water resources for human life and biodiversity, water conservation efforts, the provision of drinking water and sanitation for the community, pollution and efforts to maintain water quality.

The Section “Disaster Risk Management and Innovation” covers water-related disasters (floods, droughts, tsunamis, etc.), efforts to manage and reduce the risk of water-related disasters and adaptation to climate change. This Section also covers knowledge, innovation and technology in the field of water and the local wisdom of indigenous peoples in water management.

The competition was also preside over by world-renowned judges, namely J.R. Schenelzer dan Agatha Anne Bunanta from PSA, Romain Nero and Riccardo Busi from FIAP, as well as Johnny Hendarta and Robert Lie from FPSI.

The 10th World Water Forum International Photo Exhibition is a photo exhibition held as part of the 10th World Water Forum International Photo Competition. The photo exhibition was organized to raise awareness among visitors to the 10th World Water Forum about global water issues, including topics such as drought, water infrastructure and the well-being of living beings in general.

The photo exhibition, which took place from 18 to 24 May 2024 on the Bali Mezzanine Floor and in the lobby of the Nusa Dua Convention Center 1, attracted more than 20,000 visitors during the 10th World Water Forum. The 70 photos displayed in this exhibition were selected from a total of 4,416 submissions by 902 photographers from 53 countries. There were two modes of presentation in the exhibition, namely the zigzag mode with 30 photos and the individual mode with 40 photos. The winners of the 10th World Water Forum were awarded the FIAP Blue Pin, FIAP Gold, PSA Gold, FPSI Gold, FIAP HM and PSA HM. The FIAP Blue Pin, the highest award of the photo competition, was won by Ismail Abdul Muttalib from Indonesia.

In the Water for Security and Prosperity theme, there was 1 winner who received FIAP Gold, 1 winner who received PSA Gold, 1 winner who received FPSI Gold, 10 winners who received FIAP HM and 10 winners who received PSA HM. On the theme of Water for Human and Nature, there was 1 winner who received FIAP Gold, 1 winner who received PSA Gold, 1 winner who received FPSI Gold, 10 winners who received FIAP HM and 10 winners who received PSA HM.

For Disaster Risk Management and Innovation, there was 1 winner who received FIAP Gold, 1 winner who received PSA Gold, 1 winner who received FPSI Gold, 10 winners who received FIAP HM and 10 winners who received PSA HM. All 70 winners came from Bangladesh, Bosnia and Herzegovina, China, India, Indonesia, Italy, Iran, Macau, Malta, Myanmar, France, Romania, Russia, Spain and Vietnam.

JUDGING DAY

In Collaboration With

10TH WORLD WATER FORUM INTERNATIONAL PHOTO COMPETITION AND EXHIBITION

The sponsors of this International Exhibition of Photography have been awarded Recognition by PSA, the world's largest patron of international photographic exhibitions. PSA, although it has provided Recognition, is neither a sponsor nor directly involved in the operation of this exhibition.

Valid acceptances received by PSA Members in recognized sections of this exhibition are eligible for PSA Star Ratings, listing in the world-wide PSA Who's Who of Photography and credited towards the PSA Distinctions of QPSA, PPSA, EPSA, MPSA, MPSA2, GMPSA, GMPSA/B, GMPSA/S, GMPSA/G, and GMPSA/P.

PSA is a non-profit organization promoting the advancement of photography in all its forms to novice, amateur and professional photographers world wide.

For information on membership and the many services and activities of PSA contact:
